

2006-2007 INSURANCE GRANTS

Xiaoling Shu, Associate Professor
Sociology

Proposal title: Globalization and Value Orientations in China: Gender, Family, and Sexual Norms
\$18,256.50

Jochen Ditterich, Assistant Professor
Center for Neuroscience

Proposal title: Neural and computational mechanisms of decision making
\$37,500.00

Hao Chen, Assistant Professor
Computer Science

Proposal title: Securing Broadband cellular data networks - Discovering new threats and Exploring Unique Opportunities
\$35,437.50

Roland Faller, Assistant Professor
Chemical Engineering & Materials Science

Proposal title: Multiscale Modeling of Static and Dynamic Heterogenities in Polymer Blends
\$26,862.00

Patricia Oteiza, Associate Professor
Nutrition

Proposal title: Zinc deficiency and neuronal signaling
\$37,500.00

Richard Harper, Assistant Professor
Internal Medicine

Proposal title: Rhinovirus infection
\$36,600.00

Artyom Kopp, Assistant Professor
Center for Genetics & Development

Proposal: Integration of sex-specific and spatial regulatory pathways
\$37,500.00

Dan Potter, Associate Professor
Plant Sciences

Proposal title: Natural and anthropogenic factors in the evolution of Chrysophyllum(Sapotaceae): linking phylogenetics, phylogeography, and population biology
\$37,280.25

Simona Ghetti, Assistant Professor
Psychology

Proposal title: Neural substrates of the development of recognition memory
\$22,940.25
