WHAT DOES UC DAVIS MEAN TO CALIFORNIA?

UC Davis graduates more than 8,000 leaders annually, such as scientists, physicians, MBAs, attorneys, veterinarians and nurse leaders. The university’s cutting-edge research and public service improves the lives of Californians and powers job growth.

UC Davis generates an estimated $6.9 billion in annual economic activity, including attracting $400 million in federal research funding to California.

THE FACTS ABOUT NOVEMBER’S ELECTION

The state budget passed by the Legislature and signed by Gov. Jerry Brown earmarks enough money to UC for 2012-13 to avoid immediate tuition increases. But it depends on voters approving Proposition 30 this November. If it fails, UC will lose the earmarked funds and see a further cut—an estimated $40 million for UC Davis.

A $40 MILLION CUT EQUALS

- A tuition increase of $2,000 for every undergraduate student
- The loss of 285 faculty
- The loss of 535 staff
- The closing of an entire college
