Jeannie Darby, Chair  
College of Engineering Executive Committee

RE: Proposal to Close Admissions and Discontinuation of the Chemical Engineering/Materials Science Dual Major

The Undergraduate Council (UGC) has reviewed and discussed the proposal from the College of Engineering referenced above.

At its November 6, 2012, meeting the Undergraduate Council voted unanimously to support the proposal to close admissions and discontinue the Chemical Engineering/Materials Science Dual Major. However, other Academic Senate committees have been given until November 30, 2012, to provide the Undergraduate Council with advisory comments, and the council wants to observe the November 30 deadline before forwarding its formal response. To date, other committees that were given the opportunity to comment on the proposal have either supported the proposal as written or have had no comment.

Matthew Traxler, Chair  
Davis Division Academic Senate Undergraduate Council
