SANDI GLITHERO, CASES COORDINATOR

Academic Personnel Office

Re: Davis Division Response: Proposal to Amend UCD APM 275 and 220I

The referenced proposal was forwarded to all Davis Division standing committees and the faculty executive committee in each school/college. Responses were received from Graduate Council, the committees on Academic Personnel-Oversight and Academic Freedom and Responsibility as well as the Faculty Executive Committee from the College of Letters and Sciences and School of Medicine.

Responses were favorable. The following suggestions were provided concerning the proposed revision of UC Davis APM 275:

Section 275-10

b) 2) - the word physician should be replaced by either "clinician" or "practitioner" to be inclusive of faculty from the Vet or Nursing schools. The word "housestaff" should be replaced by "trainee", to be inclusive of students in either the Vet or Nursing schools.

b) 3) a) the phrase "medical education/training" should be replaced by the term "professional education/training" to be inclusive for the Vet or Nursing schools.

Sincerely,

Robert L. Powell III, Chair
Davis Division of the Academic Senate and
Professor and Chair, Department of
Chemical Engineering and Materials Science
Professor in Food Science and Technology
