

## **STUDENT TRANSFER AGREEMENT**

**Between**

**FACULTY OF AGRICULTURE, LIFE, AND ENVIRONMENT SCIENCES**

**ZHEJIANG UNIVERSITY**

**and**

**UNIVERSITY OF CALIFORNIA, DAVIS**

**COLLEGE OF AGRICULTURAL AND ENVIRONMENTAL SCIENCES**

This agreement creates a cooperative transfer and education program between the Faculty of Agriculture, Life, and Environment Sciences (FALES) at Zhejiang University, China and the College of Agricultural and Environmental Sciences (CAES) at the University of California, Davis. This agreement is designed for students enrolled at the FALES to pursue transfer admission to CAES to earn their B.S. degree.

1. Admission to CAES will follow the standard UC Davis and CAES application and admission procedures for transfer students, including an endorsement of the students by FALES. Final decision for admission of FALES transfer students is made by the CAES Undergraduate Admissions Committee. CAES will determine how many students can be admitted into each major, to appropriately manage enrollment. Each year, up to 10 students will be admitted into CAES majors.
2. Students at FALES will need to complete all requirements for transfer admission to be considered:
  - Complete required courses for intended CAES major with the equivalent of a B or better earned in each course. Required courses can be found at <http://registrar.ucdavis.edu/UCDWebCatalog/ugraded/agreqt.html>
  - Earn the equivalent of a minimum 3.0/B grade point college average
  - Complete the UC Davis transfer application and meet all Fall admission deadlines
  - Demonstrate solid interest and fit in the CAES major in which applying
  - Study full time in college prior to transfer
  - Possess a solid command of English, a minimum score of 100 on the TOEFL/iBT exam. All applicants are required to take the TOEFL exam.
3. Students from FALES who are granted transfer admission to CAES will enter with full junior status and will have the opportunity to complete a Bachelor of Science (B.S.) degree with an additional 90 credits earned at UC Davis.
4. Enrolled students must complete the academic requirements of CAES and the major to which they have been admitted.

5. Enrolled students are subject to the academic standards of CAES. A cumulative grade point average (GPA) of 2.00 or above must be maintained at UC Davis and CAES requirements met (i.e., at least 12 credits and one CAES course per quarter). Students who are not in good academic standing may be dismissed.
6. Enrolled students must abide by campus behavior as set forth in the Campus Code for Academic Conduct. Students who are not in good standing may be dismissed at the discretion of CAES and/or UC Davis. In such instances, there will be appropriate consultation in a timely manner with FALES before final action is taken.
7. A CAES faculty member in the student's major will provide academic advisement during their time in the College.
8. UC Davis Financial Aid will not be generally available. While UC Davis is now able to provide financial aid to a broader range of international students, we are not able to provide assistance to all international students who apply for and may be eligible for financial aid. International students awarded financial aid are selected based on enrollment priorities established by the University.

Total costs per academic year can be found at <http://admissions.ucdavis.edu/cost/>

9. Upon successful completion of the academic program at UC Davis within CAES, the student will be recommended to the faculty of CAES for the Bachelor of Science (B.S.) degree.
10. Zhejiang students may be eligible for a second Bachelor of Science degree upon completing the Zhejiang University requirements.
11. This transfer cooperative agreement will be instituted for a four-year period, with renewal upon favorable evaluations by both institutions.
