Proposal for Minor in Arabic

The Committee on Planning and Budget (CPB) reviewed and discussed the proposal for a minor in Arabic. Overall, CPB endorses the proposal. However, the committee notes the following:

- The list of electives includes the notation, "One other upper division course in Arabic language or literature (at least x% of the course)," where $x=40$ in one place and 50 in another. Does this mean that a student can drop a course four weeks into the quarter and have it count for the minor?
