## **Request for Consultation Responses**

### **Proposal to Discontinue the Electronic Materials Engineering Major**

**February 16, 2012**

The enclosed proposal addresses two issues under the authority of the Undergraduate Council (UGC) (closure of admissions and discontinuation of a major). Typically, we do not seek general comments concerning closure of admissions requests. However, given the two proposals are inter-related and included in a single proposal, we are seeking feedback to advise UGC as the Council considers the proposal.

Response to the Proposal to Discontinue the Electronic Materials Engineering Major

The Faculty Welfare Committee supports the proposal to discontinue the Electronic Materials Engineering Major. In an era of resource shortages we do not believe that a major can be maintained without a minimum threshold of student interest.

# **Graduate Council**
