

Data Provided to Programs from the Office of Budget and Institutional Analysis

- Appendix A, provided by the Office of the Registrar, includes catalog descriptions of all programs in the cluster
- Appendix B contains information on instruction, students, and faculty gathered by Budget and Institutional Analysis (BIA) using data from a variety of sources
- Appendix C includes the results of two surveys conducted by BIA: the first gathered the opinions of students in selected classes one and four years after graduation, and the second is a subset of data taken from the University of California Undergraduate Experience Survey (UCUES), which focuses on current upper division students
- Appendix D, provided by the Office of the Registrar, is a list of the educational objectives of the campus, as published in the General Catalog.

The data presented in Appendices A-C provides the basis to make comparisons between programs being reviewed in the same cluster as well as division, college, and the entire campus. Generally, the BIA data on students and faculty were compiled for the home department of the program, while the survey data (the undergraduate experience survey and the alumni survey) were compiled by the students' majors. If, in consultation with departments, it is determined that this approach would not provide useful information for the major, alternative information is provided based on the core courses that the department has identified for the major.
